

BowTieXP Risk Analysis Course

Day 1: Method and Software Training

Creating operationally relevant risk analyses

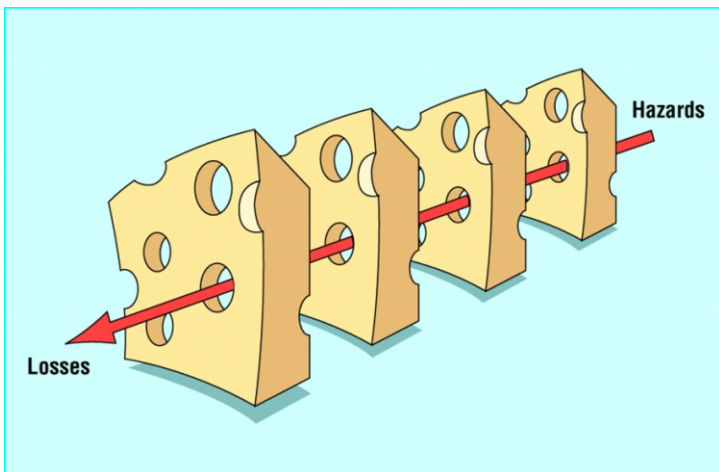

Site Safety Inc. invites you to attend our upcoming Risk Analysis Course. This course will prepare safety and risk professionals to conduct qualitative risk assessments using world-class methodologies and practices.

Using your own examples of risk exposure, you will learn to apply the methods in your work environment. During the course you will get hands-on training with the software tool, applying the latest user friendly and innovative features of BowTieXP.

Day 1 Agenda Risk analysis using the BowTie Method

Barrier thinking . . .

- **Introduction into Risk Management**
- **The BowTie Method** - History, Theory, BowTie Analysis, Advantages of a BowTie, BowTie Themes
- **BowTieXP Software** - BowTie Analysis in 8 steps: Hazard, Top Event, Threat, Consequence, Barrier, Escalation Factor and Escalation Factor Barrier
- **Workshop** - Development of basic BowTies, step-by-step diagram building, individual and group exercises
